Git Portfolio: <https://github.com/deveshmaurya1996>

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building scalable web and mobile applications using Next.js, React, React Native, Node.js, and PostgreSQL. Experienced in SSR/SSG platforms, REST and GraphQL API development, real-time systems, and AI-integrated applications in production. Proven ability to design end-to-end system architecture, implement secure authentication and authorization (OAuth, JWT, RBAC), and optimize application performance across web and mobile. Strong focus on clean architecture, scalability, CI/CD, and Agile delivery.

EDUCATION

Nxtwave Disruptive Technologies	2021 – 2022
Industry Ready Certification in Full-stack Development	
Vibhuti Chauhan Private ITI, Jaunpur	2019 – 2021
Fitter (NSQF)	
University Of Allahabad, Prayagraj	2018 – 2019
Post Graduate Diploma in Computer Application (PGDCA)	
Saryu Devi Mahavidyalaya Mahokhari Uduria Deeh, Pratapgarh	2013 – 2016
Graduation (B.Sc)	

PROJECT EXPERIENCE

Lands Authority - Employee Tracking Web App

- Engineered a full-stack employee tracking platform using Next.js (SSR), Prisma, and PostgreSQL, ensuring scalability and reliability.
- Implemented punch-in/punch-out, role-based dashboards, attendance analytics, and reporting.
- Designed secure API architecture, authentication, data validation, and audit-ready reporting features.
- Optimized SSR performance for scalability.

Technologies Used: Next.js (SSR), React, TypeScript, Tailwind CSS, Prisma ORM, PostgreSQL, TanStack Query

Davinci - Doctor Appointment Booking Platform (WordPress + Next.js)

- Built a Next.js application embedded into a WordPress container as a plugin-style solution.
- Implemented robust doctor appointment scheduling, booking workflows, and admin dashboards with efficient time-slot management.
- Implemented API integrations, server state management, and caching.
- Designed a scalable database schema for doctors, patients, and bookings.

Technologies Used: Next.js, TypeScript, Tailwind CSS, TanStack Query, WordPress container

Lalima - Project Management Platform

- ❑ Developed a project tracking platform using Next.js, Prisma, and PostgreSQL.
- ❑ Implemented role-based permissions, team access controls, and collaboration workflows.
- ❑ Created intuitive task boards, project timelines, comprehensive dashboards, and reporting features for team collaboration.
- ❑ Designed scalable APIs and optimized data fetching.

Technologies Used: Next.js, React, TypeScript, Tailwind CSS, Prisma ORM, PostgreSQL, TanStack Query

Thriveon - Cross-Platform Mobile App

- ❑ Contributed full-stack features using React Native (Expo) and Node.js.
 - ❑ Worked across a dual-backend architecture with Node.js APIs and Strapi CMS.
 - ❑ Built mobile UI screens, REST APIs, backend services, and AI-driven content workflows using Azure OpenAI.
 - ❑ Implemented Google OAuth for secure social sign-in and account onboarding.
 - ❑ Improved application performance, reducing API latency and optimizing data fetching across Android and iOS by 15%.

Technologies Used: React Native, Expo, Node.js, Strapi CMS, REST, PostgreSQL, Azure OpenAI, Google OAuth

Aicade 2D Game Builder (<https://create.aicado.io>, <https://play.aicado.io>)

- ❑ Built intuitive UI components using React, Redux, and Phaser.
- ❑ Integrated Mistral AI and Flux AI to automate asset generation and suggestions.
- ❑ Implemented RAG pipelines to improve context-aware game asset recommendations.

Technologies Used: React.js, Next.js, Redux, TanStack Query, Python, FastAPI, MongoDB, Phaser, RAG, Mistral AI, Flux AI, AWS

YOChatGpt (<https://www.yochatgpt.io/>)

- ❑ Developed real-time chat using useSWR with GPT-4 and GPT-4o integration.
- ❑ Built with Next.js and MongoDB to ensure responsiveness and scalability.

Technologies Used: Next.js, TypeScript, Node.js, useSWR, MongoDB, GPT-4, GPT-4o, Mistral, Gemini, Meta llama, Qwen

PROFESSIONAL EXPERIENCE

Bull Shark

2025 – Present

Full Stack Developer

- ❑ Developed and maintained scalable full-stack applications using Next.js (SSR), React, Node.js, FastAPI, Prisma, and PostgreSQL.

- Delivered multiple production applications across healthcare, enterprise, and productivity domains.
- Engineered high-performance cross-platform mobile apps using React Native and Expo.
- Integrated AI models and automation workflows into production applications, improving efficiency.
- Implemented Azure Entra ID and B2C authentication for Malta Medical Center healthcare booking platform.
- Designed end-to-end backend systems, including APIs, authentication flows, and database architecture.

Aicade

2024 – 2025

Full Stack Developer – Frontend Heavy

- Optimized 2D game generation tools using AI, Phaser, Next.js, Redux, and TanStack Query.
- Designed and implemented highly interactive UI components for game level design and asset customization.
- Integrated AI-powered APIs to enhance procedural generation and asset recommendations.
- Improved performance optimization techniques for smooth and responsive gameplay experiences.
- Worked with AI-driven APIs, machine learning-based assets, and real-time game data processing.

LabLamb Works Limited

2022 – 2024

Full Stack Developer

- Developed Android and iOS applications using Expo and React Native.
- Developed and optimized web applications using React.js, Gatsby, and TypeScript.
- Implemented GraphQL APIs using Keystone for efficient data handling.
- Designed and integrated UI components with MUI and CSS for responsive layouts.

Nxtwave

2021 – 2022

Full Stack Developer (Training and Project Experience)

- Learned fundamentals of web development including HTML CSS and Bootstrap for building responsive layouts.
- Built foundational skills in JavaScript and Python focusing on problem solving and core programming concepts.
- Gained hands-on experience with Git for version control and collaborative development workflows.
- Learned backend basics using Node.js and Express including building simple APIs and server side logic.
- Worked on small projects to understand component based architecture and end to end web application flow.

SKILLS

Frontend: JavaScript, TypeScript, React.js, Next.js, Gatsby, Vue.js, Nuxt.js, Tailwind CSS, MUI, Recharts

Mobile: React Native, Expo, React Navigation, Android Studio, Xcode, Play Store Deployment

Backend & APIs: Node.js, NestJS, FastAPI, Python, Prisma ORM, Keystone GraphQL, REST APIs, GraphQL, WebSocket APIs, JWT, OAuth, Azure Entra ID, Azure AD B2C, Zod, Auth.js / NextAuth

Databases: MongoDB, PostgreSQL, SQLite

AI/LLM Engineering: LLM Integration, Prompt Engineering, RAG, Embeddings, Vector Databases, Structured Outputs, AI Workflows

Architecture & Security: System Design, API Design, RBAC, Authentication & Authorization, Input Validation, Secure Session Management

Performance & Scalability: SSR, SSG, Caching, API Performance Optimization, Lazy Loading, Code Splitting,

Real Time Applications

State & Data Fetching: Redux, TanStack Query, SWR

Cloud, Hosting & Deployment: AWS, Vercel, DigitalOcean, Docker, Linux, CI CD Pipelines

Testing, QA & Monitoring: Postman, API Testing, Debugging, Sentry

Project Management & Collaboration: Agile/Scrum, Jira, Slack, Figma

Version Control & CI/CD: Git, CI/CD Pipelines, Release Management

Analytics: Google Analytics, PostHog

Other Skills: UI Design, Problem Solving

CERTIFICATIONS

- ☐ Certification in Programming Foundations with Python, NxtWave
- ☐ Certification in Node JS, NxtWave
- ☐ Certification in React Js, NxtWave
- ☐ [Certification in CSS, HackerRank](#)
- ☐ [Certification in Python, HackerRank](#)
- ☐ [Certification in SQL, HackerRank](#)
- ☐ [Certification in React, HackerRank](#)
